AMPCO SAFETY TOOLS®

LIFE TIME WARRANTY

TERMS, CONDITIONS & TOOL CARE REQUIREMENTS

AMPCO SAFETY TOOLS products are engineered for demanding professional Applications. If a product fails under normal and intended service due to a defect in material or workmanship, it will be repaired or replaced in accordance with the terms below. Warranty coverage is confirmed only after technical evaluation by **AMPCO SAFETY TOOLS.**

1. WARRANTY COVERAGE

- Covers defects in materials and workmanship occurring during the normal service life of the tool.
- AMPCO SAFETY TOOLS may repair the product, replace it with the same or an equivalent product, or provide another appropriate warranty solution.
- The warranty applies for the lifetime of the tool, subject to applicable local law. Where lifetime warranties are restricted, the legally permitted warranty period will apply.

2. CONDITIONS FOR COVERAGE

- Use the tool only for its intended professional purpose and within its appropriate size, capacity and operating limits.
- Inspect the tool before use and remove it from service if cracking, deformation, mushrooming, excessive wear or other damage is detected.
- Keep the tool clean and dry, maintain it appropriately and store it in suitable conditions.
- For non-sparking tools, keep working surfaces clean and free from contamination that could adversely affect their intended safety characteristics.

3. WARRANTY EXCLUSIONS

- Normal wear and tear or deterioration resulting from regular professional use.
- Misuse, abuse, use for an unintended application, overloading, excessive impact or improper leverage.
- Improper maintenance or storage; corrosion, chemical attack or environmental damage not caused by a manufacturing defect.
- Unauthorized repair or modification, including welding, heating, bending, machining or other alteration outside AMPCO-approved procedures.
- Continued use after visible damage or excessive wear has been identified.

4. WARRANTY CLAIM PROCEDURE

- Contact AMPCO SAFETY TOOLS or your authorized distributor before returning the product.
- Provide the product reference, quantity, description of the issue, clear photographs and, when available, proof of purchase or order reference.
- Include information on the application and conditions of use. The product may be requested for technical inspection.
- Warranty coverage is determined after evaluation of the tool and the reported circumstances.

IMPORTANT - TOOL SERVICE LIFE: The lifetime warranty does not represent an unlimited service life. Service life depends on application, frequency of use, working conditions, maintenance and the condition of the tool. A damaged or excessively worn tool must be removed from service regardless of warranty status.

Legal notice: This warranty is subject to applicable local laws and does not limit statutory rights that cannot legally be limited or excluded. AMPCO SAFETY TOOLS reserves the right to update these terms when necessary
